DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of 1-[1-(4'-Fluoro-biphenyl-4-yl)-5-(2-fluoro-phenyl)-1H-pyrazol-4-ylmethyl]-4-methyl-piperazine and schizophrenia in the reply filed on August 7, 2008 is acknowledged. The traversal is on the ground(s) that there is no undue burden to search the entire scope of the claims. This is not found persuasive because Formula I comprises numerous variable groups, each with a multitude of possible options, and encompasses a plethora of compounds, each requiring their own separate search. Additionally, the method groups require a different field of search to account for their differing active steps, which are not present in the composition claims, leading to a serious search burden. Furthermore, search burden is not a factor when determining lack of unity in a national stage entry of a PCT application, i.e. the instant case.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-10 provide for the use of compounds of formula I, but, since the claim does not set forth any steps involved in the method/process, it is unclear what

method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-10 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
